on the True Pulse A2000

Post photo taken after one session

Patient 1 – Pre-Diabetic with mold exposure

from before and after treatment images seen below:

following photos clearly show a highly positive effect on the condition of blood cells, after one or more live blood cell analyses through his facility, Superior Health Solutions, in Henderson, Nevada. Dr. Rob DeMartino, a member of the Pulsed Harmonix Scientific Advisory Board, has done extensive, extensive research on the effects of PEMF therapy.

The before and after pictures show that no matter what your current health condition PEMF has a significant impact. Patients with more severe or chronic conditions show blood cells in a more normal state after treatment, while patients with less severe conditions may see improvements in their blood cell condition after multiple sessions.

The Pulsed Harmonix TruePulse A2000 produces a pulsing electromagnetic field that stimulates and recharges your blood cells within minutes. With frequent use, the vital systems of the body are recharged, including the immune system.

The electricity passes through the coils it creates a magnetic field that is blocked or is reduced sufficiently by travel away from earth, the vital life systems of the body cannot live without PEMF. The earth produces pulsing electromagnetic fields. We evolved with them, however they are now only 10% of their historical level of intensity. When the magnetic field is blocked or reduced, the body’s vital life systems are adversely affected.

Inflammation and pain can be substantially reduced in 10 to 20 minutes. With frequent use, the vital systems of the body are recharged, including the immune system.

The name of the technology is PEMF, Pulsed Electro Magnetic Field. Thousands of studies and trials have been published on its effects since the US and Russian space program research proved that PEMF has beneficial effects on the human body.

All living cells have a magnetic field. We evolved with it, however, the levels we experience today are much lower than those we experienced in the past. PEMF therapy is not new. It has been used in Russia and the United States for decades, but it has only recently become widely available in the United States.

PEMF is Pulsed Electro-Magnetic Field Therapy. PEMF therapy stimulates and promotes natural melatonin production. PEMF therapy reduces Rouleau Effect, the stacking adhesion of Red Blood Cells, resulting in improved capillary circulation.

PEMF therapy expedites the body’s natural healing processes. Its effects are cumulative. PEMF therapy promotes natural melatonin production. PEMF therapy improves autonomic and parasympathetic (healing) systems. PEMF therapy provides essential energy to the body. PEMF therapy stimulates repair at the cellular level.

The FDA has already cleared Pulsed magnetic therapy for fusing broken bones, treating severe untreatable depression and now to treat post-operative pain and swelling.

PEMF therapy is safe and simple to use. A2000 is safe and simple to use. PEMF therapy incorporates published healing pulse frequencies.

The PRO Kit has a limited 3-year warranty.

True Pulse A2000®

• Backed by a 30-day money-back guarantee*
• Certified Space Technology
• FDA Registered Class 1 (exempt) Medical Device
• Backed by a 30-day money-back guarantee*
