

## 2019 Pulsed Harmonix Client Feedback Survey

### How satisfied are you with results of your PEMF therapy treatments?

Answer choices	% Responses	Clients
Extremely	57%	45
Good	31%	25
Fair	10%	8
Poor	2%	2

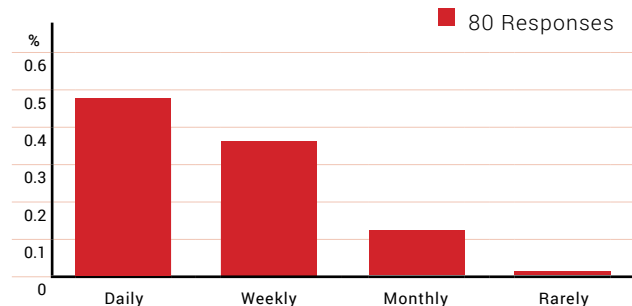

“ Having had a sensitive knee from a yoga injury for years, daily treatments on the mat at its entry level intensity has eliminated the sensitivity. I just returned from a two week trip to Egypt and had no problem walking over rough terrain. I have used the mat for a year.

– Alex C

### How often do you use your Pulsed Harmonix PEMF therapy device?

Answer choices	% Responses	Clients
Daily	47%	38
Weekly	37%	30
Monthly	12%	9
Rarely	4%	3

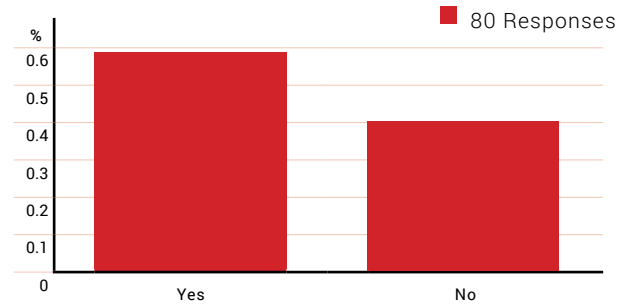

“ The PEMF has helped relieving pain. I keep it close to me on a regular basis.

– Audry E.

## Has the A2000 reduced need for medications and/or medical assistance?

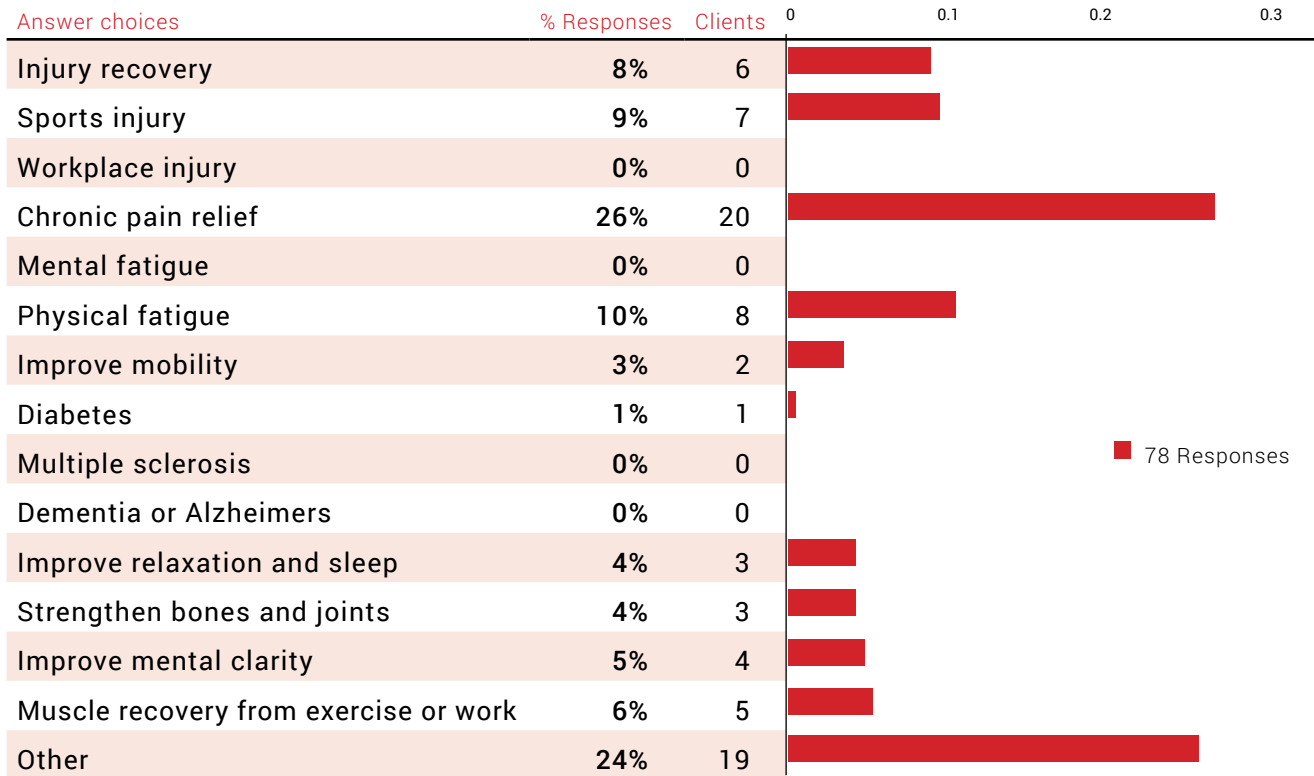

Answer choices	% Responses	Clients
Yes	59%	47
No	41%	33

“ I have used the Pulsed Harmonix (PEMF) since it first came out. It has helped with recovery from soft tissue muscle strains and to improve my sleep at night. Thank you!”

— Steve M.

## What condition prompted you to access the benefits of PEMF therapy?

“ The A2000 has made a significant contribution towards combating the osteoporosis I suffer from.”

— Sharyl F.

## Testimonials and comments from 2019 Pulsed Harmonix Client Feedback Survey

“ I always feel looser in my muscles and joints after a session. It relaxes my mind as well. I use it with my patients and it is helpful dealing with chronic pain, inflammation and range of motion. It does a great job at speeding up the healing of fractures and reducing the pain associated with injuries.”

– Denny H.

“ I used it daily. Grateful I have it. Recovery time is greatly reduced.”

– Steffane R.

“ I use the PEMF in my veterinary practice to help patients with acute or chronic inflammatory conditions as well as even seizures. It has been a great tool for many patients. It also helped my son avoid a second back surgery.”

– Thomas R.

“ My PEMF machine has been and intricate and ongoing part of my cancer journey and treatment! I am now healthier than I was before my diagnosis.”

– Troy E.

“ I love my PEMF, use is almost every other day. I find it to give me the extra boost if energy I need to make it through the next day. I am still trying to find the best way to use it without over usage, which does cause me to not feel well because of toxic overload. But I would recommend it to anyone!”

– Barbara R.

“ PEMF has helped me continuously with pain relief and a feeling of better well being”

– Dottie S.

“ I notice it works best when I use the PEMF regularly, which I am not good at, but determined to do more of. It really makes a difference!”

– Oscar G.

“ It has given me abundant energy”

– Patrick A.

“ Wife and I love ours so much I brought it home for our own personal Use”

– Name G.

“ A booklet with information on how to place the padding...how long ... what it treats”

– Todd E.

“ I will definitely have a testimonial more in the future but I already see tumors shrinking!”

– Ron H.

“ The machine helped me feel better and now I do not use it much.”

– Dan H.

“ Will give a testimonial when I achieve more results. I have a question: Given I have poison throughout my body- is this treatment of value or does it have a negative impact by pushing the poison around my body thereby making me more sick? I have experienced nausea after some sessions. I also have chronic Lyme Disease.”

– Mike F.

“ As a Doctor of Chiropractic, I encourage all my patients to utilize this therapy and many become regular users. Joint and muscle injuries and pain, anxiety, peripheral neuropathy and insomnia are among the conditions helped. I find it profoundly relaxing: the sedation of the sympathetic nervous system (fight or flight division of the autonomic nervous system) is a key underlying cause of most functional problems. The Pulsed Harmonix instrument rivals a lot of the other PEMF devices that are 3 to 5 times the price also. Don't know how I did without it.”

– Daniel A.

## Testimonials and comments from 2019 Pulsed Harmonix Client Feedback Survey

“Just a comment...I like the device and share it with my sister. I think the devices effectiveness would be enhanced with more information on how to target its use to specific conditions. (without having to do a bunch of personal research....)” — **Grady G.**

“I can honestly testify that the A2000 PEMF has performed extremely well for me and friends that work or sports related injuries. Additionally, I am also using it to treat MDS (bone marrow cancer) and feel that it has helped immensely.” — **Nancy E.**

“NOT A TESTIMONIAL BUT COMMENT TO OWNERSHIP. Perhaps unit would better to have gauges to determine wavelength, power etc to make sure unit is operating properly. Unit seems to have slightly different sound and feel whole on the same setting on different days. It is obviously working but would be good to know at what level during that moment.” — **Tedd R.**

“I think magnets are the future in medicine and energy. I am very impressed with this technology. I have much greater mobility and pain free after a ski accident - ACL , bi lateral meniscus tears. Thank you!” — **Evan C.**

“My double meniscus tear was real. ER and then checking w 3 orthopedics doctors - one actually said surgery was needed. I used my PEMF therapy and now all is well.” — **Mercedes B.**

“We have used this amazing technology has benefited not only my family members but hundreds of our patients. We keep all four of our units going everyday we are open!” — **Tambra G.**

“I am a healthy (knock on wood) 77 year old male and I have used PEMF daily as “preventative treatment” for over 5 years. Recently I used it to reduce the varicose veins in my left leg. It worked so well that a cycling friend asked if I had had vein surgery. I am a 3X National Cyclocross champion. I still race and ride most days. I ride between 150-200 miles a week and eat mostly a WFPB diet.” — **Austin E.**

“Aside from helping me overcome a myriad of health conditions, I sleep better and haven't had a cold since I got it over 2 years ago and I have a compromised immune system working with children- it's a miracle worker!” — **Benjamin G.**

“I work hard physically, and have to see a chiropractor often when I get out of adjustment. The device lessens the need to visit him.” — **Abby E.**

“Can't under the circumstances” — **Carson C.**

“This is great for relief of flare ups. I use it in conjunction with other treatments. My husband has also used it to speed up recovery when he is not well. I believe it is a great investment” — **Michelle R.**

“I have had big success using the machine on my daughter's sprained ankle. My kids and I also use it to overcome stomach aches. The other uses are less easy to see specific results. I use it daily because I believe it will increase the vitality of my cells. I am currently trying to use it to help my daughter overcome tendinitis and bursitis in her hips.” — **Jannet W.**

**\* Methodology for 2019 Pulsed Harmonix Client Survey:** Questions were distributed to 542 clients who previously purchased a Pulsed Harmonix A2000 device. Survey was conducted utilizing Survey Monkey software platform sent via email to clients. Objective was to solicit client satisfaction feedback and inquire why clients had sought out PEMF therapy. What condition prompted such. How often they used the device, and request to provide testimonials or comments. We provided \$20 Starbucks gift card to the 80 clients who provided responses to 2019 survey. As email was the delivery vehicle for distributing survey, many were most likely never opened as a result of being sent to spam or “other” folder by email server.
